

Classification: UNCLASSIFIED

Caveats: FOUO

The McClatchy articles have generated a lot of discussion and questions among laboratory staff. This meeting is to set the record straight about information presented in the press.

There will be a short presentation that illustrates the actions USACIL took.

The presentation will be followed by an opportunity to ask questions.

This

is your opportunity to get clarification on any of the work quality issues raised in the articles.

While examiners are probably most sensitive to the information represented in the McClatchy articles, every USACIL employee is affected. I encourage you to attend to get a more complete picture.

Please note we will be packed into CR 1 & 2 to accommodate everyone.

Rick Tontarski
